

ADA OKONKWO

Backend Software Engineer | TDD Expert | REST API Design | Data Analysis

+2347069444398 ada.b.okonkwo@gmail.com http://linkedin.com/in/ada-okonkwo Lagos, Nigeria. 101201

SUMMARY

Software engineering professional with 3 years of experience in backend development and data analysis, skilled in modeling and remodeling database schemas and backend architectures to improve scalability and performance. Expert in Test-Driven Development (TDD) and REST API design. Key achievements include the creation of scalable RESTful APIs used by over 2000 users and reducing API testing runtime from over 1 hour to under 10 minutes using test-Asunción. Seeking a Top Coder (Python) position at HighBrow Technology, where my backend development and data analysis skills are brought to support your mission of enhancing AI training processes and product performance.

EXPERIENCE

Software Engineer

Smart Fix Innovation

- 08/2025 - Present Lagos, Nigeria
- Increased system efficiency by {25%} through collaboration with cross-functional teams on backend and automation solutions.
 - Developed and customized websites using WordPress and Elementor.
 - Established performance benchmark to ensure system reliability.
 - Implemented test-driven development to improve code quality and reliability.
 - Performed data analysis to support business operations and decision-making.
 - Refined API endpoints and automation workflows to enhance performance and maintainability.

Backend Developer

Kodehauz Solutions Planet

- 10/2024 - 01/2025 Nigeria
- Collaborated with cross-functional teams to build and deploy backend APIs using Python (FastAPI), emphasizing clear communication and documentation.
 - Created scalable RESTful APIs used by 2000+ users.
 - Conducted performance testing and benchmarking to ensure high API reliability.
 - Reduced API testing runtime from over 1 hour to under 10 minutes using test-Asunción.
 - Modeled database structures and relationships to support API data consistency and scalability.

EDUCATION

BSC

University of the People

- 09/2027 California, USA
- Computer science
 - Student Ambassador, 3.0 GPA

Honours 4.0 CGPA

University of Port Harcourt

- 2013 - 2019 Port Harcourt, NG - BSc

CERTIFICATION

Software Engineering with ALX

Backend Development with kodecamp

TRAINING / COURSES

Software Development

With Digital Innovation Fellowship

SOFTWARE ENGINEERING

With ALX

Backend Development - Python (FastAPI)

With Kodecamp
